All In One VPN Client Crack+ Free Registration Code [Mac/Win] (2022)

All In One VPN Client is a simple utility that enables you to easily create and manage VPN connections. It hides your IP and replaces it with that of a VPN server in order to increase your privacy. What you see is what you get The software has been built with the idea of "what you see is what you get" in mind, thus providing fast access to VPN configuration options and settings right from the main window. It allows you to easily login to a server using an existing account, while also providing info on your active VPN connections. A link to create a new account is also offered, though keep in mind that have to pay a subscription fee to receive access to specific servers, and that you have a variety of plan options at your disposal. Easily manage multiple VPN servers The tool allows you to easily connect to various servers and to manage all connections from the same interface. In addition to providing you with the possibility to connect to the server you want (as long as it is included in the specific VPN package you are subscribed to), the program also allows you to make as many switches as you want between servers. High-quality media streaming With All In One VPN Client, you can also enjoy media streaming with no speed loss capabilities, courtesy of integrated support for iDNS. To take advantage of the feature, simply go to the iDNS tab in the main window to get started. Hitting the "Stop iDNS" button will automatically revert to your default DNS settings. The software comes with auto-reconnect capabilities, as well as with a kill switch, for improved VPN management capabilities. The app can also be set to launch on system start up and to automatically login as soon as it is up and running. Conclusion All In One VPN Client can easily become your companion when you are interested in browsing the web via a specific server, is simple to use and intuitive. It does require a subscription to work, but its functionality might make it worth the trouble for many. Free Download from Softonic All In One VPN Client Subscribe now and save up to 60%!
