The Group Creation System The Group Creation System: Launch the game with your friends, and their various thoughts will interact with each other. Before starting play, set up goals, and choose a clear leader in accordance with the rules of the game. Create the group with the Others as the other members, and allow the group to interact with the world in collaboration. A character managed to defeat an enemy by customizing your own NPC. The amount of experience that the character receives from combat rises as the number of other players rises. Various items can be exchanged in a non-targeted manner. This means that no matter how many times you send a certain object to another character, the character will only receive the item once. Loot items from enemies using the loot box item, which functions using the same system as the mobile title "POD". Enemy Level The enemy level system will be adjusted in accordance with the number of characters in the party. Enemy stats will be adjusted accordingly. "An action RPG that pulls a gun out at any time."

A beautiful landscape stretches out on both sides of the road. Danger lurks around every corner. The hot wind of the desert swirls. And an enormous hot pink car (loaded with weapons and stuffed with innocent bystanders) swings in your direction.

You are in danger. The only thing that can save you is a small car that races along the road with an onboard machine gun.

You need to escape in order to survive. With the car you can take on the situation with a variety of weapons, or use a variety of fighting styles to deal with foes.
